## From Experts to Experts

The trade show  
for Automotive Glass,  
Smart Repair and  
Car Detailing

**11./12.10.2019**

Areal Böhler

Düsseldorf, Germany

Messe  
Düsseldorf

» **Birgit Horn,**  
Director tasc

Dear Sir or Madam,

After a successful premiere in 2017, we are looking forward to the future - tasc has succeeded in establishing itself as a new meeting place for professionals from the automotive glass, smart repair and car detailing sectors in the automotive aftersales market.

As a compact trade fair, it not only informs about new products and trends, but it also offers a welcome platform for networking. Common interfaces between the individual industries stimulate a professional exchange amongst specialists in order to discuss current topics, such as an extension of their own service offers or potential cooperation in damage control and repair.

With its convincing event results, this concept prevailed amongst both exhibitors and visitors from the entire aftersales market. We will build on this successful foundation. Be part of it and present your products and services to an interested visitor audience at tasc 2019.

Sincerely,

Be part of it!

**50**  
exhibitors from  
**7** countries

**87%**   
recommendations

**1,159**  
visitors from **11** countries

**74%**
